

## Audio Visual Project Manager

### Company presentation

Fractal Systems is a privately owned company that has its headquarters in Dubai Silicon Oasis (DSO).

We are specialized in event technology, providing a turn key solution for all kind of activation. Established in Dubai in 2011, Fractal Systems collaborates and delivers its professional services throughout the Middle East and Africa.

- Holograms
- Mechatronics
- Crowd Entertainment
- Augmented and Virtual Reality
- Large Interactive Showcases

We are also providing custom solutions for our customers regarding their needs and their targets, including content creation and software development.

### Job Description

Due to on-going success, we are now looking for an AV Project Manager to join our team and take a lead role on the technical production across a wide range of events from brief to on-site delivery.

### Responsibilities

- Taking client briefs and understanding their requirements
- Working on proposals
- Carrying out site visits
- Putting together technical specification's
- Defining and managing production schedules and timeframes
- Managing budgets
- Sourcing and managing freelancers
- Liaising with external suppliers
- On-site management

### Requirements

To be considered as our new AV Project Manager, you must have a strong technical production understanding, within the events industry. We are looking for candidate who come from a production company, AV supplier of a venue.

This is a busy and fast-paced environment so we are looking for candidates who are team players, can work under pressure and who have sharp attention to detail.

In return this is a fantastic opportunity to join a fast growing technical production company where you can broaden your experience and take the lead on a huge range of mouthwatering and high profile and big budget events!

- Qualified applicants have earned a strong experience in the field:
  - 5 to 10 years' experiences in the event industry which involve AV installation.
- 3 to 5 years Team and Project Management experience required.
- Knowledge in "3D CAD"/ "SolidWork" is a key differentiator.
- UAE Driving Licence.
